

SHIVA BHUSAL

FLUTTER DEVELOPER | FULL STACK DEVELOPER

Anamnagar, Kathmandu | bhusalshiva010@gmail.com | www.shivabhusal.com.np

SUMMARY

Flutter and Full Stack Developer with hands-on experience building cross-platform mobile applications, RESTful APIs, and WordPress/WooCommerce solutions. Skilled in Flutter, Dart, React Native, React, Riverpod, GoRouter, PHP, and MySQL, with a focus on clean architecture and scalable, production-ready code. Delivered restaurant management, healthcare, and e-commerce applications, along with 15+ client WordPress websites.

PROFESSIONAL EXPERIENCE

Flutter Junior Developer — Zylux - Promoted from intern to Junior Flutter Developer role - Built and maintained production Flutter features using clean architecture and Riverpod state management - Worked on API integration, bug fixing, and performance optimization for live mobile applications	June 2026 – Present
App Developer Intern (React Native & Flutter) — Zylux - Developed cross-platform mobile app features using React Native and Flutter - Collaborated with the team on UI implementation, API integration, and testing	March 2026 – May 2026
WordPress Developer Intern — DropHills Pvt. Ltd. - Contributed to frontend and WordPress development, building clean, responsive interfaces - Supported 15+ client projects including WooCommerce stores, landing pages, and corporate websites - Handled bug fixes, plugin configuration, website migration, and SEO/performance improvements	May 2025 – Present
Web Design & Development Intern — DropHills Pvt. Ltd. - Designed intuitive, responsive UI/UX and converted Figma designs into WordPress websites - Revamped websites into modern, mobile-optimized platforms, boosting engagement - Collaborated with developers to ensure smooth design-to-functionality integration	March 2025 – May 2025
Freelance Flutter & Full Stack Developer — Upwork / Independent - Delivered 20+ freelance projects across mobile apps, e-commerce, business, and finance websites - Built and deployed restaurant POS, inventory management, and healthcare platforms in Flutter	2024 – Present

KEY PROJECTS

Theeran — E-commerce Mobile App (Upwork)
Flutter, WooCommerce, Custom REST API, Riverpod, Dio, JWT Auth

- Built the client's WooCommerce e-commerce website from scratch, then developed a custom REST API layer on top of it
- Developed the companion Flutter mobile app consuming this API for catalog, cart, wishlist, and checkout
- Built a custom WordPress REST API for wishlist functionality after hitting third-party plugin limitations
- Deployed live on Google Play Store: play.google.com/store/apps/details?id=com.theeran.myapp

Swasthya Sewa — Healthcare Platform
Flutter, React / Next.js, Riverpod, Clean Architecture

- Full healthcare platform with a Flutter mobile app and a React/Next.js web side
- Implemented doctor/patient consultation scheduling with live countdowns and centralized datetime handling
- Built POS integration and push notifications
- Designed an inheritance-based entity model and structured, clean-architecture folder layout

LoanLodge — Full Website Build
WordPress / Full Stack

- Built the complete LoanLodge website end-to-end
- Continue to maintain and support the live site

Client Portfolio Website
Next.js, Fully Responsive

- Built a fully responsive personal portfolio website for a client using Next.js

RestroNP — Restaurant POS & Management System
Flutter, Riverpod, REST API, MySQL

- Restaurant management app with POS, billing, inventory, and multi-shop admin dashboard

Inventory Management System
Flutter, Laravel, MySQL

- Product, sales, purchase, and reporting dashboard for business inventory tracking

Backend API Service
NestJS, JWT Auth, MongoDB, SQL

- Built a backend API using NestJS with JWT authentication
- Integrated both MongoDB and SQL databases
